Kepada: Prof. Dr. Andrejs Skesters <editor@eurchembull.com>

Dear Editor
ECB Journal

We have read and used scientific articles published in ECB Journal.

The performance of the ECB Journal was excellent, and the published article helped us conduct research and write scientific articles.

I am Henie K. Represent other authors, a lecturer from UIN Profesor K.H. Saifuddin Zuhri Purwokerto, Indonesia

We have completed a scientific article entitle "Dynamics Self-Healing Facing Quarter-Life Crisis on Students"

We hope this article can be published in the ECB Journal because there are interesting findings in the scientific article that can become new treasures in sciences, especially in the field of social sciences.

We are willing to go through the review process following ECB Journal standards.

Best Regards,

Henie K.
UIN Profesor K.H. Saifuddin Zuhri Purwokerto, Indonesia

Dear
Henie K. et al.
UIN Profesor K.H. Saifuddin Zuhri Purwokerto, Indonesia

Thank you for submitting your manuscript to ECB Journal.

We have completed our evaluation, and the reviewers recommend reconsidering the team manuscript following minor revisions. We invite the article to send back after addressing the comments below. Please resubmit the revised manuscript by April 8^h, 2023, or ask whether an alternate date would be acceptable.

When revising the team manuscript, please consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any comments not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit a revised manuscript, please log in as an author at this email, and navigate to the "Revision" folder.

ECB Journal values team contribution, and I look forward to receiving the revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. The abstract could be more concise and focused. Consider providing a clear statement of the research objective and summarizing the key findings and implications in a succinct manner.
2. The sources of information mentioned in the document study technique should be properly cited. It is important to include accurate references to ensure transparency and enable readers to access the relevant sources for further reading.
3. While the study highlights the occurrence of violence in the educational environment, it would be beneficial to provide specific examples or case studies to support the claims made. This can enhance the credibility and relevance of the research.
4. The relationship between dynamics self_healing and quarter life-crisis could be further elaborated. Consider discussing specific mechanisms through which social capital influences the occurrence of violence, such as the role of trust, social support, or community engagement.
5. The keywords could be expanded to include additional relevant terms that capture the essence of the research. This can help increase the visibility and discoverability of the article in academic databases and search engines.

I hope the team can make improvements immediately and send the revised article again via this email.

Kepada: Henie K. <Henie@uinsaizu.ac.id>

Dear

Henie K. et al.

UIN Profesor K.H. Saifuddin Zuhri Purwokerto, Indonesia

Thank you for your efforts to make improvements team article.

Based on the Reviewers' considerations, the article has, at some point, increased. However, the team has to improve on a few more points. Hopefully, the team is willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. Provide a clear research gap or problem statement that highlights the significance of studying dynamics self and Facing Quarter Life-Crisis specifically in the Indonesian context. This will help situate the study within the existing literature and demonstrate the novelty and relevance of the research.
2. Consider including a robust methodology section that describes the research design, sample selection, data collection methods, and analysis techniques used. A detailed methodology section will enhance the transparency and replicability of the study, allowing other researchers to evaluate and build upon the findings.
3. While the abstract mentions a decline in social capital, it would be helpful to explore the potential consequences and impacts of this decline on the educational system in Indonesia. Discussing how decreased social capital affects student well-being, academic achievement, and overall school climate can provide a more comprehensive understanding of the issue.
4. Expand the discussion on the practical implications of the findings. How can the research contribute to policy-making, intervention programs, or educational practices aimed at addressing violence in education and rebuilding social capital? Providing actionable recommendations based on the study's results can make the research more impactful and relevant to stakeholders in the field.
5. Consider integrating theoretical frameworks or concepts related to social capital and violence in education to strengthen the theoretical foundation of the study. Drawing upon established theories or models can provide a framework for understanding the complex dynamics between social capital and violence, adding depth and scholarly rigor to the research.

Articles that have been revised and please send them back via this email.
