Frequently Asked Question

How do I view the reviewer comments, after the formal peer review, if the Editor-in-Chief provided feedback regarding my article?

The editor should send you an email stating all the revisions suggested during the formal peer review process. If you are advised to download the comments via your personalised journal section, follow these steps:

- Log into your personalised journal section in the journal.
- Under your 'User Home' click on the 'Author' or 'Active' link that will direct you to your 'Active Submissions Table'.

- Under the 'Status Column', click on 'In Review: Revisions Required'. This link takes you to the overview of the peer review process.
- The review page of your article provides information and documentation under the heading 'Peer Review', and will identify files by reviewers, e.g. Reviewer B 19-123-1-RV.docx 2011-08-10. Download these documents to view the reviewer files.

Frequently Asked Question: The Editor-in-Chief has requested revisions to my article. How do I submit my revised version?

When the editor dealing with your submission chooses to ask for a revision, you will be notified by email. In the journal's personalised section your submission will move in the active table from the status 'In Review' to 'In Review: Revisions Required'.

When you prepare a revised version of your manuscript, it is essential that you carefully follow the instructions given in the editor's letter. Use the standard uploading format (as described for original submissions), but include both a clean copy of your manuscript and an annotated copy describing the changes you have made. Failure to do so will cause a delay in the review of your revision.

If references, tables, or figures are moved, added, or deleted during the revision process, renumber them to reflect such changes so that all tables, references (Vancouver Style) and figures are cited in numeric order. Images need only be uploaded if changes have been made to the figures since the previous version.

The annotated copy should have highlights on the changes (either by using the 'Track Changes' function in Word or by highlighting or underlining text) with comments in the text referring to the editor or reviewer query. Be sure when you upload your annotated version that the changes are clearly visible on the Word (.doc) file prior to resubmission.

You should create a point-by-point response letter specifying how you have addressed each of the editor's and reviewer's comments.

Using the review version of your manuscript, edit and revise your submission according to the reviewers' and editor's comments, and follow the steps:

- When you have addressed the comments and completed your revisions, log into your journals' personalised section and click on 'In Review: Revisions Required'.
- Under the 'Editor Decision', click on the bubble icon to view the editor's decision letter. If needed, you may view the original editor and reviewer comments by clicking files linked under the 'Review Round'.
- Once your revisions are correctly formatted and prepared, click on 'Browse' to begin uploading your revised manuscript from your desktop. Ensure to upload a clean, annotated and point-by-point version as part of your revised manuscript submission.

Once all three documents are uploaded, you will need to inform the editor via email of your resubmission. Click on the email icon and proceed to type and email the editor. Remember to press 'Send'.

For a video detailing the uploading of your revised manuscript see here:

Originality

This manuscript contains new and significant information, so it deserves to be published

Relationships with the relevant literature

Based on the focus of studies that discuss Hybrid Sufism for Enhancing Material-Spiritual Quality: Ethnographic Perspective in Indonesia, then the primary literature of Hybrid Sufism and Material dan Spiritual Quality should be adequate. Therefore its needs to be adding more relevant literature including the original documents of hybrid sufism from the latest papers (last 5 years) except nomumental works.

Methodology

The arguments built on this paper are not yet fully based on theories and concepts taken through the study of literature from primary sources.

The method was ethnography by exploring the mindset and activity of Kyai and his followers, the study involved 4 Kyais and 20 his followers. But, the data of the mindset and activity of the kyais, are not sufficient. Also, no data was found for 20 followers. The documentary method used is the study of ethnography, with the Mile Hubermen's model analysis. This model of Mile Hubermen's, need to be displayed adequately.

Result

The description of the results in this article needs to be added data on the concept of Sufism which is then actualized to social and cultural life, and it needs analysis that shows its conformity with sufism teachings. It is also necessary to add data about the authority kyai in the world of Sufism and the adequacy of data taken from 20 followers that have been determined by the author. Results also need to display data and ethnography analysis based on Mile and Habermens theories

Implication

The implications of the findings of this paper are clear and can be a consideration for the next research, especially on the aspects of challenges that must be prepared strategies to deal with it.

Clarity of communication

The language used in this article is quite easy and adequate.

Comments for manuscript improvement

It should be corrected according to the advice above, to be published in this journal

Reviewer C:

This study discusses Hybrid Sufism, which combines aspects of vertical and horizontal relations, balancing material and spiritual interests, between worldly and hereafter problems. However, the ethnographic approach promised by the researcher has not been fulfilled. Researchers only rely on secondary data sourced from documents. As a result, there is no novelty of the study needed. The concept of Hybrid Sufism has also not been explained theoretically, the methods used and the research results are inconsistent, and the analysis is not deep. Furthermore, the author can consider the results of the review as material for improving the article, as attached.

Kepada: Dr Suwito Suwito <suwitons@gmail.com>

Manuscript title: Hybrid sufism for enhancing quality of life: ethnographic perspective in Indonesia

Journal: HTS Teologiese Studies / Theological Studies

Dear Dr Suwito

Your galley proofs have arrived!

We are excited to share your manuscript in your Author Centre in galley format (PDF) to proofread and review. Kindly ensure to scrutinize the galley proofs well and include any necessary changes at this point, which include, among others:

- Answer all related queries from production staff and editors.
- Pay close attention to deadlines; late submissions can delay publishing.
- Always check author order, author names and affiliations.
- If you introduce text, make only critical changes that might affect conclusions (e.g., data revisions).
- Update any in-press citations if published at the proof stage.
- Correct typos.
- Do not make extensive text changes or move blocks of text.
- Please do not make your changes within the PDF, as we will not be able to track the changes made.

This proof contains notes and queries from production staff and editors that need to be addressed to avoid publication delays. To ensure timely publication of your manuscript, we ask that you do not skip a query and markup the critical and necessary changes due to errors. Your work must reach your intended readership not just as soon as possible but at a quality level that makes your scientific impact in the scholarly community.

Steps to access the galley proofs:

1. Visit the platform by following the link <https://hts.org.za/index.php/hts/author/submissionEditing/7198>
2. Log in to the journal, if required.
3. Select the link labelled 'View Proof' under the heading 'Layout'. You will be able to download the PDF onto your computer or print it.
4. Add changes (typographical and format) by either adding markup and comments on the galley with a PDF viewer application using the HIGHLIGHT TOOL ('How to Use the Comment and Markup Tools in Adobe Acrobat': <https://tinyurl.com/5n7795k5>) or adding your comments to the function 'Proofreading Corrections' on the platform. We prefer markups in the PDF with a comment tool highlighting change requirement. If you struggle with this functionality, you can make your comments in a Word Document. Upload your proofread PDF with markup comments under Step 1: Proofreading. Ensure to upload any figures or tables that need replacing too. You will be able to upload multiple files.
5. Finally, inform me that your proofread PDF is available. In Step 1, proceed to click the email icon under COMPLETE. You will not be able to add any more files after sending this email.

We ask that you respond to this email as an indication that you have received our request. Would you please let me know if an extension is required? We would like to receive your feedback within a week.
